

Lunea

U41

A rounded inside corner module that allows soft, flowing Profim Lunea sofa configurations to be created. The module must be used as part of a larger arrangement and can be combined with U11, U22, U23, U31, U32, U41, U42, U51 or U52 modules. Its curved form creates a more relaxed character and works well in freestanding Profim Lunea configurations for offices, hotels and HoReCa interiors.

Collection features:

- Modular seating system designed for architectural planning across workplace, hospitality and public interiors.
- Scaled from +10 cm to +80 cm in 10 cm increments to support cleaner layouts, stronger symmetry and more efficient space planning.
- Raised on slender powder-coated metal legs, giving the system a visually lighter and more architectural appearance than traditional modular seating.
- Rounded geometry creates a softer, more welcoming atmosphere.
- Flexible configurations ranging from compact corner layouts to large open-plan arrangements all within one coherent visual language.
- Integrated accessories include LN78 tables, tablet arms, Mediaport power access and planter modules.
- Back-to-back configurations allow efficient zoning in open environments.
- Dual upholstery option allowing different colours of the same fabric on the seat and backrest.
- Certified to Möbelfakta, EN 16139, EN 1021-1&2 and BS 5852 Crib 5 standards.
- Originally developed for Stylex (Flokk Group, USA) — a proven modular platform refined for the European market.
- Profim Lunea can be used by persons weighing up to 130 kg.

Technical specifications:

Product version U41

Round inside corner, upholstered seat and backrest, metal legs

Frame

Cast aluminium leg.

Height: 306 mm.

Available powder-coated or polished aluminium.
